

# DreamLAUNCH™ Installation Instructions

## 1. Download DreamLAUNCH™ setup files

- a. Click on “Download DreamLAUNCH” at [www.321LAUNCH.ca/dreamlaunch.php](http://www.321LAUNCH.ca/dreamlaunch.php). Click on Download Now.
- b. A window should pop up giving you an option to open or save the file. Click on “Save” (see Image A1)
- c. Select the folder in which you want to save the DreamLAUNCH™ set up files. (Image A2) Make sure this location is easy to find – you’ll need to go back to it in the next step. (Here’s a possible option: Save the file on your desktop so you can find it again easily. This folder can be moved later on if you decide on a different location.) This may take a few minutes, depending on the speed of your computer.

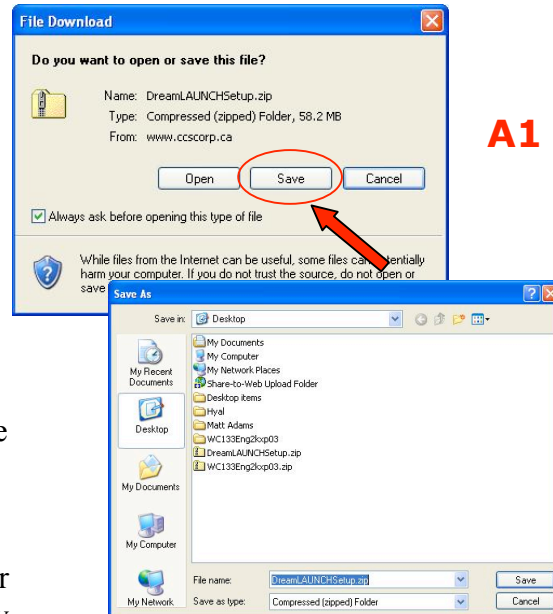

Image A: Save setup files and find a location on your computer to store them.

- d. Navigate to the folder that contains the *DreamLAUNCH™* Setup zip file you have just saved. (If you saved this file on your desktop, look for the icon named “DreamLAUNCHSetup.zip” (see image on the right).

- e. Extract all files by right-clicking on the zip file and clicking “Extract all”. Follow on-screen instructions in the Extraction Wizard that will appear by clicking “Next” (Image B). You will be asked to choose a location for these extracted files. By default, the wizard will most likely select the same folder in which you had saved the initial zip file.

Click on “Finish” to complete the process.

- f. You are now ready to install *DreamLAUNCH™*!

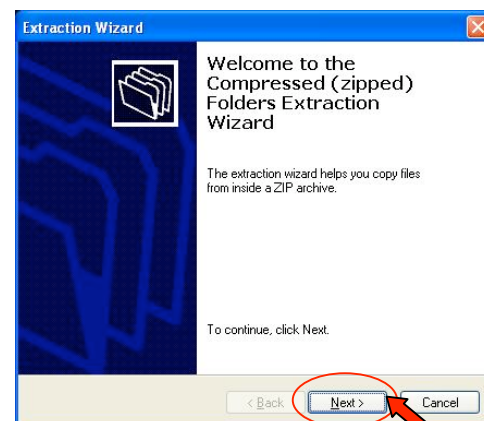

Image B: Unzip the setup file by extracting all files using the extraction wizard.

## 2. Installation Setup

Double-click on the *DreamLAUNCHSetup.msi* file (Windows Installer Package) or right-click on the file and select “Open”.

**Note:** If you do not have the .NET Framework 2.0 installed on your computer, you will be presented with the option to do so at this point.

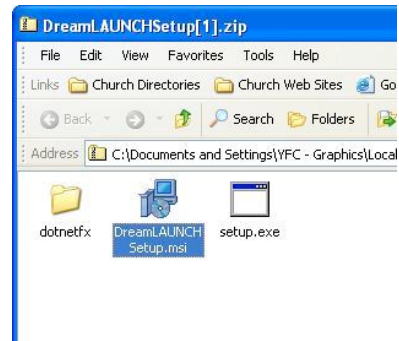

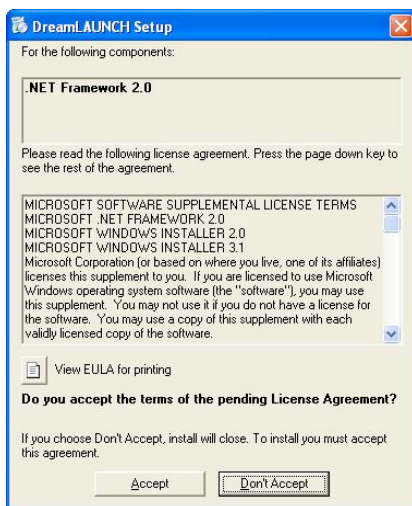

Image C: Find the DreamLAUNCH Setup file and open by double-clicking the icon.

Image D: Click on “Run” to continue instructions on how to install the .NET Framework 2.0

If you choose not to install the .NET Framework 2.0, you cannot continue with the installation of *DreamLAUNCH™*. If you already have the .NET Framework 2.0 installed, proceed to step 3.

## Installing the .NET Framework 2.0

Read the End User License Agreement (EULA). You may choose to print this off and store a copy for your own records.

When you are ready, click on “Accept” and wait for the installation to complete. (**Note:** You may need to close any open programs during this process.)

Image 3: Read the License Agreement and accept to install the .NET Framework 2.0.

### 3. Installing *DreamLAUNCH*<sup>TM</sup>

- a. You should now see a *DreamLAUNCH*<sup>TM</sup> splash screen (Image 4) with the option to cancel or continue. To continue, click on “Next”.
- b. The next screen is a welcome screen for the installer. Click the “Next” button to continue.

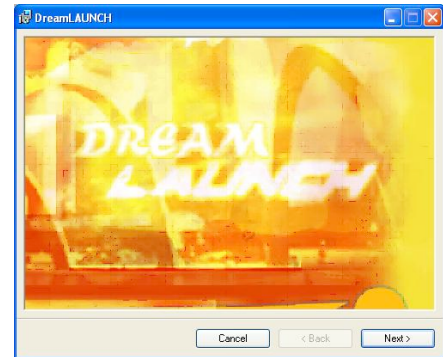

Image 4: *DreamLAUNCH* Splash Screen

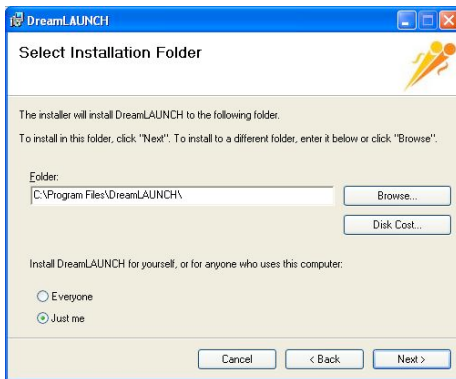

Image 5: Select location for *DreamLAUNCH*.

- c. Follow the on-screen instructions. (Image 5: Select the location where you want *DreamLAUNCH*<sup>TM</sup> installed and choose whether you want to install *DreamLAUNCH*<sup>TM</sup> for yourself or for anyone who uses your computer.) Click “Next” to continue.
- d. *DreamLAUNCH*<sup>TM</sup> is now ready to install. Click “Next” to continue and wait for the installation to complete.

- e. You will be asked to enter a 26 digit product key. Once a correct key is entered, the red X will turn into a green check mark and you will be permitted to continue.

If you have not received a product key, please contact [LAUNCH@youthunlimitedgta.com](mailto:LAUNCH@youthunlimitedgta.com).

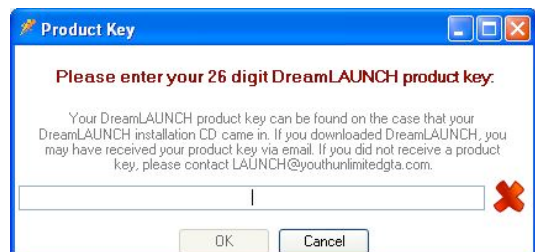

Image 6: Ensure you have received the 26 digit *DreamLAUNCH* product key.

### 4. Checking for updates

We recommend using Microsoft Update to ensure that you are using the most recent version of .NET Framework 2.0. If you do not use Microsoft Update and run into problems using *DreamLAUNCH*, please visit <http://update.microsoft.com/microsoftupdate> to see if a security update has been released, or visit the Microsoft website at [www.microsoft.com](http://www.microsoft.com).

Check for important updates to the *DreamLAUNCH*<sup>TM</sup> software on the LAUNCH website at [www.321LAUNCH.ca](http://www.321LAUNCH.ca).
